

RESIDENT NOTICE

September 29, 2026

Old Vienna Road construction, Tillsonburg

Old Vienna Road between Van Street and Vienna Road in Tillsonburg will be closed for trunk inlet sanitary sewer replacement

About this project

Oxford County has awarded a contract to Birnam Excavating Limited to construct a new inlet sanitary trunk sewer on Old Vienna Road in Tillsonburg. The project will improve hydraulic performance, reduce operational risks, and provide a more reliable and maintainable wastewater collection system.

Old Vienna Road between Van Street and Vienna Road will be closed beginning the week of October 5, 2026, to accommodate construction.

Work includes installing a new sewer, along with associated manholes and connections to the existing sewer system and the Tillsonburg Wastewater Treatment Plant. The project also includes surface restoration, erosion protection measures, and grading work as required.

Construction is expected to be completed by the end of November 2026. Please note that construction schedules are weather dependent and subject to change based on site conditions, contractor availability and other factors.

Questions?

How will the project impact me?

Traffic control

Old Vienna Road between Van Street and Vienna Road will be closed beginning the week of October 5, 2026, to accommodate construction. Please note, the sidewalk in the work area will also be closed. Two detours will be in place for the duration of construction:

Detours: Van Street, Old Vienna Road, Simcoe Street and Vienna Road

Garbage and recycling collection

Access to waste and recycling collection in the construction zone is expected to be affected during construction. During construction, the contractor will collect homeowner bins and take them to a central location for collection.

Property owners are asked to mark garbage and recycling containers with their house number so they can be returned to the correct property. Please continue to have your regular household waste and recyclables on the roadside by 7:00 a.m. on your regular pick-up day.

Safety

Please help keep our community and workers safe: respect work zones, obey traffic signs, and maintain a safe distance from equipment and vehicles entering and leaving the site.
